PRINCE CHAR

CELAL HALLAÇ

Daha önce yayınladığımız BIG-EDIT programı için yeni bir karakter seti daha yayınlıyoruz. Bu karakter setini ve BIG-EDIT programıyla yayınlanan diğer karakter setlerini bu ayki Renk+Kaydırma adlı programla kullanabilirsiniz. Yapmanız gereken tek şey bu dataları ve Renk+Kaydırma programını MDE ile girip kaydetmek ve daha sonra, programı çalıştırmadan önce Prince char'ı da yüklemek. İyi çalışmalar.

```
 PROGRAM  : PRINCE-CHAR  3000 3800

LINE SWEEP

TUNCAY GAZİ

Oyunumuz yıllar önce Atari için hazırlanan bir oyundan esinlenerek yazılmıştır. Oyunda KURSOR tuşları ile mavi bir topu yönetiyoruz.

Amacımız ise satırlar arasına konmuş çizgilerin hepsini yiyip bitirmek. Ancak bu iş göründüğü kadar kolay değil. Oyunda bizi zorlayacak olan iki önemli engel var. Bunlardan ilki satırlar arasında dolaşan ve bize çarptığında bir hakkımızı götüren dolar işaretleri. Oyuna dört hakla başlıyorsunuz, hak sayınızı L1 değişkeniyle oynayarak arttırabilirsiiz. Dolar işaretlerini bir de açık yanları var, bunu bulmayı da size bırakıyorum. Açıklarını yakaladığınız zaman oyunu kolaylıkla bitirebilirsiniz.

İkinci engel ise zaman. Dolar işaretleriyle uğraşırken zamana karşı da yarışmanız gerekiyor. Tanınan süre bir buçuk dakika. Umarım yeter.

Oyunda her çizgi yediğiniz de 10 puan alıyorsunuz. Bütün çizgileri bitirdiğinizde ise bir kutlama mesajı belirtir ve tekrar oynayıp oynamak istemediğiniz sorulur. Eğer çizgileri zamanında bitiremezseniz kaybettiğiniz belirtilir ve tekrar oynamak istiyor musunuz diye sorulur.

Oyun sırasında puanınız, kalan hakkınız ve geçen süre ekranınızın üstünde gösterilir. Hepinize başarılar.

```

RANDOM FUTBOL LİGİ

TOLGA KALE

C-64'ünüzle lig yönetmek ister miydiniz? Bu program belki Football Manager II gibi güzel grafik, Football Director gibi güzel kurguya sahip değil, ama yine de insan 34 hafta boyunca heyecana kapılıyor. Programın adını Random Futbol Ligi koydum ama oyun tamamen de şansa dayanmıyor. Her takımın belirli bir teknik puanı var ve teknik puanı daha fazla olan takım, teknik puanı az olan takımdan daha fazla gol atma şansına sahip. Bu teknik puanları data satırlarında bulabilir ve değiştirebilirsiniz. Biraz da oyunu açıklayalım. Açılış ekranından sonra hangi takımı tuttuğunuz soruluyor. Burada tuttuğunuz takımın listedeki numarasını yazın. 14 saniye boyunca fikstür hafızaya yükleniyor ve menü karşınıza geliyor.

1- Takım Değiştirme
2- Haftanın Maçları
3- Puan Tablosu
4- Haftaya Başlama

1- Takım Değiştirme: Burda ilk önce takımların listesi çıkıyor ve kaç numaralı takımın değiştirileceği soruluyor. Sonra yeni isim soruluyor, yeni liste çıkıyor ve başka değişiklik yapılıp yapılmayacağı soruluyor. E ile başka değişiklik yapılabilir. H ile menüye geri dönülür.

2- Haftanın Maçları: Burada haftanın maçlarını görebilirsiniz. Herhangi bir tuşa basarak menüye geri dönülür.

3- Puan Tablosu: Burada puan tablosunu görebilirsiniz. Program, averajı sıralamada hesaba katmıyor. Herhangi bir tuşla geri dönülür.

4- Haftaya Başlama: İlk önce maçların sonuçları gösterilir. Herhangi bir tuşa bastıktan sonra puan tablosu gösterilir ve diğer hafta başlar. 34 hafta sonunda şampiyon bilgisayar tarafından kutlanır. Programda 1987-1988 yılının fikstürü kullanılıyor. Program diskette 16 blok yer kaplıyor. Bu zevkli ve eğlenceli programı yazmanız dileğiyle.

Q-TEST (GEOS)

VEDAT HALLAÇ

İşte Geos yazısında açıkladığımız programının MDE dökümü. Tabi ki bunu yazdıktan sonra GEOS formatına çevirmeniz gerekiyor. Bunun için şu bilgileri vermeniz gerikiyor:

C64 Dosya Tipi : USR
GEOS Dosya Tipi: APPLICATION
GEOS Yapısal Tipi: SEQ
Başlangıç adresi : $4400
Bitiş Adresi : $46BD
Çalıştırma Adresi : $4400
Dosya Adı : Q-Test V1.7

Yazarın Adı : Kendi adınızı yazabilirsiniz.

Tabi ki bunlardan sonra bir de ikon tanımlayıp programı GEOS formatına çevirin. Gelecek aya kadar hoşçakalın.

```

GENİŞLEME

OZANSER UĞURLU

Genişleme, arkadaşlarınızla beraber zevkle oynayacağınız bir zeka oyunu. Genişleme, iki kişilik oynanmasının yanında tek kişilikte oynanabiliyor. Ayrıca bilgisayarın kendi kendine oynamasını da seyredebilirsiniz.

Genişlemenin oynandığı yer 8x8'lik kare alanı. Amacınız karşı tarafın bütün sayılarını kendi elinize geçirmek, bunu yapabilmek için sayılarınızı rakibinizin sayılarının yanında patlatmanız gerekli, böylece o sayı hem sizin olur. Hem de durumuna göre artar ya da patlar.

Oyun kolay görünmesine rağmen zordur, bütün kareler paylaşılınca etraf karışır. Oyunu tam kazanacakken karşı tarafın bir hamlesi ile oyunu kaybedebilirsiniz.

Her karenin bir patlama sınırı vardır, o karedeki sayı patlama sınırını aşınca patlar ve dört bir yana dağılır. Eğer dağıldığı yerde sayı yoksa o kare sizin olur veya karede sizin bir sayınız bulunuyorsa sayınız bir artar.

Başlarken oynayanlar sırayla hamle yaparlar; ister karelere birer sayı koyarlar isterlerse bir kareye koyduğu sayıyı arttırır ve patlatır. Oyunun kazanmanın sırrı rakibinize uzak oynamaktır.

Oyunun başında zorluk derecesi sorular 0'dan 9'a kadar bir zorluk derecesi seçebilirsiniz. Zorluk derecesinin tek farkı oynama süresinin azaltılmasıdır. 0 ile 9 arasında bilgisayarınızın size hamle yapmak için verdiği süre çok farklıdır.

Genişlemeyi üşenmeden yazmanızı tavsiye ederim. Sonuçta arkadaşlarınızla zevkle oynayabileceğiniz kendi yazdığınız güzel bir oyunnuz olacaktır.

Başarılar.

LAST MÜZİK

ZEKİ KOÇAK

Bu program basic yükleyicisi şeklindedir. Programı yazmak için önce BDE'yı yükleyin daha sonra biraz uzunca olan bu programı yazıp, sonra da diskete ya da kasete kaydedin. Programı çalıştırınca önce ekrana açıklama metni çıkar, aralık tuşuna basınca datalar okunur ve hangi satırın okunduğu ekrana yazılır. Datalar bittiğinde müzik çalışmaya başlar. Bu programın iki özelliği vardır.

1. Müzik programı interput'lu olduğu için müzik çalarken yazabilir ve çalıştırabilirsiniz.

Not: Programınızın $4000-$4bb5 arasına dokunmamalı ve interput'u kesmemelidir.

2. Müzik çalarken müziğin ritmine uygun olarak her iki kenarda açılıp kapanan beyaz şerit programa ayrı bir renk katmaktadır.

Müziğin sesi POKE 16384,1 ile açılır.

AT YARIŞI

MURAT ERBAŞ

Eminim ki içinizde at yarışı meraklıları oldukça fazladır. Ben de bunu göz önüne alarak hepinizin işine yarayacak ve yarışlar hakkında detaylı bilgi depolamanızı sağlayacak bir programı sunuyorum. Bu program varış tarihi, mesafesi, pisti, zamanı, yarış sonucunu, jokey ve kilosunu, ganyanı ve yarış hakkındaki notlarınızı girmenizi ve bir diskette saklamanızı sağlar. Bunların yanında bir dizi yardımcı bölümler içerir. Programda gerekli açıklamalar bulunduğundan, bu konuda fazla zaman kaybetmeyeceğim. Programı BDE ile yazıp kaydettikten sonra çalıştırdığınızda ana menü ekrana gelecektir. Burada 'F1' den 'F7' ye kadar basacağınız tuşlara göre yapabileceğiniz bir dizi işlem var. Bu menüden yeni bir dosya açabilir, önceden açılmış dosyaya ekleme yapılabilir, eski dosyaları silebilir, bir dosyanın içeriğini görebilir, directory (dosya listesi) alabilir, sürücü hata verdiyse hatayı öğrenebilir ve diskteki arızaları (yer kalmamasından dolayı yarım kalan dosyaları diske zarar vermeden yok etmek gibi) düzeltmek için validate yapabilirsiniz.

Dosyanızı girerken ekranın üst bölümündeki açıklamaları gözardı etmeyin. Bir sayfa bilgi girdikten sonra devam etmek için 'D', hatalarınız varsa onları düzeltmek için 'H', dosyayı bitirmek ya da daha sonra devam etmek üzere kaydetmek için ise 'Ç' tuşuna basmanız gerekiyor. Programın açıklamaları bu kadar, programcılık ve ganyan hayatınızda başarılar dilerim.

MOZAİK

CELAL HALLAÇ

Eğer siz de benim gibi zevkli ve sürükleyici zeka oyunlarını beğeniyorsanız aradığınız oyunu buldunuz demektir. Mozaik aynı anda iki oyuncu ve bilgisayarla birlikte oynanabiliyor. Bu, oyunun başında yapacağınız seçime bağlı. Seçiminizi yapıp oyuna başladığınızda her oyuncunun, üzerinde rakamlar bulunan on adet taşı olduğunu göreceksiniz. Sırası gelen oyuncunun taşlarının altında rakamlar belirecek ve tahmini olarak seçilen bir taş ekranın ortasına gelecektir. Burada amacınız taşlarınızı soldan başlayarak küçükten büyüğe doğru dizmek. Gelen taşı, yerleştirmek istediğiniz pozisyona getirmek için o pozisyonunun altında bulunan rakamın tuşuna basmalısınız. Taşı yerleştirdiğiniz pozisyondaki eski taş yenisi ile yer değiştirecek ve ekranın ortasına yol alacaktır. Böylece sizden sonraki oyuncu sizin eski taşınızı alabilecektir. Eğer gelen taşı beğenmediyseniz aralık çubuğuna basarak ikinci bir taş isteme hakkınız var, tekrar aralık çubuğuna basacak olursanız sıranız geçecek ve bir sonraki oyuncu ortadaki taşı alma hakkına sahip olacaktır. Oyunu, taşlarını ilk olarak sıralayan kazanır ve en yüksek puanı alır. Diğer oyuncular soldan başlamak üzere sıraladıkları taş sayısına göre puan alırlar. Oyun siz çıkana kadar devam eder ve tüm puanlar toplanır. İlk başladığınızda oyunu biraz zor bulabilirsiniz fakat daha sonra oyunu iyice kavrayacağınızdan işler kolaylaşacak ve oyun daha zevkli bir hal alacaktır. Bol puanlı ve çekişmeli mozaikler dileğiyle.

PROGRAM ADI : MOZAIK
